1. According to Marshal Tito's plans for rebuilding the Navy and the defense of the Adriatic, primary emphasis will be given to the construction of torpedo boats and pocket submarines, since the Soviet Union is no longer supplying submarine parts for assembly in Yugoslav shipyards.
2. By the end of 1952, Yugoslavia is to produce a total of ninety-two MAS torpedo boats entirely from her own resources. These torpedo boats are being constructed under article 147 of the production project.
